

MBA Corporate Development Summer Intern

Join Checkmate Pharmaceuticals as our MBA Corporate Development Summer Intern for the opportunity to be part of a fast-paced and collaborative team. Our Intern will work alongside our Chief Business Officer and other company leaders to pave the company's strategic pipeline going forward, and most importantly, impact patient lives.

Background: Checkmate Pharmaceuticals, Inc. is a clinical stage company that is leveraging its expertise in the field of CpG oligonucleotides to discover and develop immunotherapies designed to increase the efficacy of existing immunotherapies and to provide new treatment options for patients and their healthcare providers. Checkmate's lead product candidate, CMP-001, is an investigational cancer immunotherapeutic that has been shown to reverse resistance to PD-1 therapy in some patients. Checkmate is a publicly held company headquartered in Cambridge, MA. Additional information regarding Checkmate is available at www.checkmatepharma.com.

Location: Cambridge, MA

Duration: Summer 2021

Responsibilities may include:

- Company public relations activities ranging from scientific conferences to investor relations meetings
- Support commercial forecast and evaluation efforts (research market access, pricing potential, etc.)
- Product development initiatives and strategic activities for launch preparation
- Conduct market research and competitive ROI analysis projects to build models allowing for more strategic decision-making
- Life-cycle valuation analyses for external collaborations and partnership opportunities: from initial potential assessment to deep dive research evaluations, and valuation modeling to strategically prioritizing and pitching recommendations to executive team
- Participate in external deal development: coordinate due diligence, participate in transaction term sheet negotiations and execution of deals
- Strategically evaluate and pitch opportunities to develop a well-calculated pipeline portfolio in alignment with the company's long-term strategy
- Develop and cultivate relationships within the biotech community

Qualifications:

- Applicants must be enrolled in a U.S. accredited university for the semester before and immediately following the internship
- A bachelors or advanced degree in life sciences preferred
- Two years of prior work experience, preferably in either pharmaceutical or biotechnology industry

- Advanced knowledge of MS Office
- Strong analytical and quantitative skills
- Strong oral and written communication skills
- Ability to initiate and take ownership of multiple projects
- Ability to work in fast-paced environment and seamlessly manage shifting priorities with minimal directives
- Ability to function in a collaborative, team environment
- Preference for candidates located in the Greater Boston area

Candidates must be authorized to work in the U.S.

Candidates must be available M-F 40 hours/week.

Candidates will NOT be eligible for benefits.

Checkmate is an EEO employer
